

REVERSIBLE CONCRETE MIXER (Mini Batching machine)

Venus make RM series is widely used on various construction sites as it's a compact batching machine having features like separate weighing of material, auto water dozing system, admixture dozing and printing facility and it comes on 4 pneumatic tyres with tow bar facility which makes it easy to move and shift on site.

Due to continuous up gradation in our technology Venus Equipment reserves it's all right to change or alter the design of the machine without any prior notice. For any further clarification regarding products please feel free to call us @ +91 85111 89405, +91 85111 89406.

VENUS EQUIPMENT

Complete Solutions for the Civil & Road Construction
Machineries and Heavy Steel Fabrication

Technical Details

Model	RM 550 E	RM 800 E	RM 1050 E	RM 1400 E
Output capacity/ Hour	8-10 CuM	10 -12 CuM	12-15 CuM	15-17 CuM
Mixer type	Reversible drum type mixer			
Mixing and discharge of concrete	Forward rotation of the drum mix the material and reverse rotation of the drum discharge the concrete			
Main drive of the mixer	10 HP	12.5 HP	15 HP	20 HP
Material weighing system	Digital load cell based weighing of the material in each bin			
Water tank capacity	150 litre	200 litre	250 litre	300 litre
Water feeding system	Flow rate based accurate water feeding system			
Pneumatic tyres	4 no	4 no	4 no	4 no
Hydraulic tank capacity	40 litre	40 litre	60 litre	90 litre
Centralized lubrication system	Inbuilt centralized lubrication system			
Tow bar facility	Yes	Yes	Yes	Yes
Control panel	Micro processor based control panel			
Total connected power	12.5 HP	15 HP	17.5 HP	23 HP
Suggested DG set	15 KVA	22 KVA	25 KVA	30 KVA

Optional Accessories

- Printing facility
- Auto Admixture dozing system
- Single/two/three bin system
- Pen drive port facility
